# KOMELON Corporation

---

For over 55 years, Komelon has manufactured a full line of quality measuring tools with a dedication and passion for craftsmanship while supplying markets throughout the world.

As the world's most vertically integrated measuring tape manufacturer, Komelon handles it all with the most advanced and innovative R & D technology. This enables Komelon to manage everything from our raw material manufacturing plant, to global marketing, and distribution. By doing this, we ensure our customers the highest quality products, at competitive pricing.

## Komelon Corporation - Korea

This is the corporate headquarters housing all product design, engineering and research & development. This facility is also where our tape measures, cutter knives, Meter-Man Measuring wheels, and saw lines are manufactured.

## Komelon Steel Corporation - Korea

Komelon manufactures its own steel strip material for all blades and springs used in tape measure production. This ensures the highest quality tape measures on the market.

## Komelon China

This manufacturing facility is located in Qingdao, China. The facility was built to better serve Komelon's rapidly growing worldwide sales.

## Komelon USA Division

This sales and distribution center for North America warehouses high inventory levels to ensure fast shipments and superior customer service.

# ***CONTRACTOR SERIES***

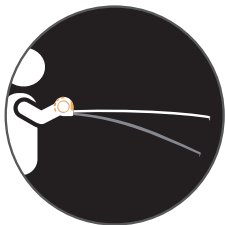

# Contractor TS

The Contractor TS is the first 1 1/4 in. wide-blade tape measure created by KOMELON. Its compact case is ergonomic and fits comfortably in your hand. The nylon coated blade is made to last and is resistant to wear. The finger-stop on the 25 ft. and the 35 ft. models provide full control and protection from blade whipping during retraction. Last, but not least is the 12 ft. of true standout, providing a straighter and more accurate use of standout on any job site.

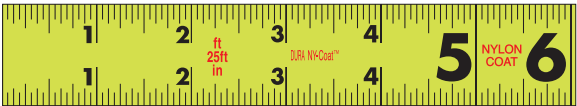

Finger-stop for control and protection

12ft of True Standout

- Compact case
- 12 ft. of true standout
- Nylon coated blade
- Printing on both sides of the blade
- Magnetic end hook allows for easier one person measurement (79425)

Horizontal graduations on front

Vertical graduations on back

79425	25 ft.	1 1/4 in.	4	24	6 50056 70425 6

# Contractor LR

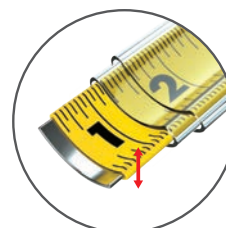

The Contractor LR is another first to the market by Komelon. This tape is manufactured with a rust-resistant stainless steel spring, ensuring that the blade will always retract back into the case. This ergonomic compact case fits nicely in your hand. The nylon coated blade is made to last and is resistant to wear. Plus, the blade is 20% thicker to prevent kinking. The blade also has marks on both sides to provide quick and easy readability in any application.

**NEW**

Stainless steel spring

20% thicker blade to prevent kinking

- Compact case
- Built in stainless steel spring
- Double nylon coating
- Printing on both sides of blade

25LR	25 ft.	1 in.	4	24	6 50056 01125 5

# Contractor LT

The Contractor LT by Komelon is the first long steel tape with extruded blade coating. This is a special coating that surrounds the entire blade to protect it and the markings from any abrasion. It's heavy-duty, ergonomic case is durable and will withstand the harshest work environments. It even has a built-in blade cleaner to ensure long-lasting blade life. Lastly, the long steel tape features a fast, 3:1 geared rewind and comes with a stake for single person use.

- Extruded blade coating
- 3:1geared rewind
- High visibility blade
- Extruded nylon coating
- Heavy duty ergonomic case
- Built-in blade cleaner
- Multi purpose end hook
- Magnetic end hook holder

# ***FIBERGLASS TAPES***

# KOMELON Fiberglass Tapes

**TENSILE STRENGTH:** KOMELON tapes are manufactured with our own fiberglass compression technology invented for 16,000 filament strands to withstand over 500kg of pulling force.

## BLADE STRUCTURE OF KOMELON FIBERGLASS TAPE

- a. Fiberglass strands
- b. Permanent adhesion
- c. PVC coating
- d. Printing
- e. Transparent PVC
- f. Glare-proof embossed finish

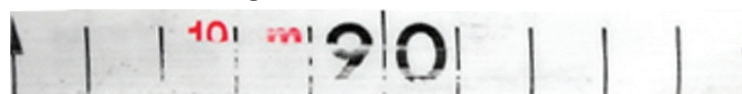

KOMELON double-coated fiberglass tapes feature a transparent PVC coating which is able to resist wear and tear up to 40 times more than other non-coating fiberglass tapes.

## ABRASION TEST RESULT OF KOMELON FIBERGLASS

### KOMELON

### Other non-coating blades

**Abrasion test:** KOMELON double coated fiberglass tapes resist 10,000 cycles(20,000 scrubs). Other A grade brand fiberglass tapes showing signs of wear and fading of the printing at 250cycles (500 scrubs).

## FEATURES AND BENEFITS OF KOMELON FIBERGLASS TAPES

KOMELON Double-Coated blade protects markings and graduations from chemical and mechanical abrasion. It is waterproof and dirt-resistant. Resists stretching even in extreme temperatures.

White and Yellow, 2 color blade prevents twisting while using.

# ***LONGSTEEL*** *TAPES*

# KOMELON Long Steel Tapes

LONG Steel Tapes are used by contractors, concrete workers, road construction crews and various other professionals who need accurate measurements.

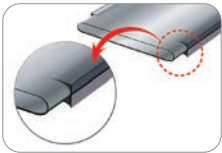

## Blade Structure of KOMELON Long Steel Tapes

### BLADE STRUCTURE OF KOMELON LONG STEEL TAPES

- a. High grade carbon steel
- b. Anti-rust phosphate surface treatment
- c. Strong baked on paint
- d. Transparent nylon coating
- e. Tough embossed finish

## Features and Benefits

**De-burred edges :** Rough edges cause corrosion and rust, KOMELON steel tapes with de-burred edge treatment prevents the rough blade edges from causing early corrosion and cracking

**Nylon coating :** The KOMELON DURA NY-Coat™ nylon coating reduces wear and abrasion. Featuring an embossed finish for added protection and reduced glare. The rust-resistant nylon coating covers the entire blade surface, ensuring long lasting readability and durability.

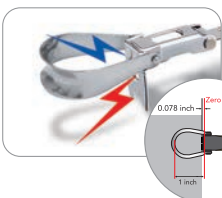

**Heavy duty case construction** with impact resistant ABS case or frame. Built-in wire guard to protect case.

**Durable rollers** guide the blade and prevent twisting.

**Versatile ring end hook**  
(\*Add 1 inch when measuring with the ring hook.)

**Magnetic end hook** allows for easier one person measurement.  
Available in MagGrip Gripper™

Zero commencement is inside of the hook. Add 0.078 inch when the magnetic tip is abbutted to a metal surface for an exact measurement.

# STEEL REEL™

Komelon open reel steel tapes feature a nylon coated steel blade that will not stretch or distort. This high quality measuring tool is a must for anyone that needs to be extremely accurate.

# ***ACCESSORIES***

# Quick Draw Belt Clip

Tape measures are used constantly on jobsites and home improvement projects. Komelon's Quick Draw allows for quick and easy access to your tape measure every time a measurement is needed. The Quick Draw locks your tape measure firmly in place when not in use, ensuring the tape measure is secure. With the push of a button the tape measure is back in your hands ready for the next measurement. No longer do you have to struggle with attaching your tape measure to your belt or possibly ripping your favorite pair of work pants. This convenient tape measure accessory is ideal for any home owner or professional tradesman.

QD1

- Quick & easy tape measure access
- Tape locks firmly in belt clip holster
- Easy push button retrieval
- 2 adaptors included for 2 separate tape measures
- Compatible with all KOMELON tape measures
- Tether strap compatible

1. Unscrew the standard belt clip
2. Screw in Quick Draw adaptor

ITEM NO.	DESCRIPTION			
QD1	Quick-Draw Belt Clip	10	40	6 50056 00001 3

# Torch Safe™

The Torch Safe is safe, convenient, and a must have for anyone using utility torches. The Torch Safe's purpose is to securely hold and store your utility torch and should be installed in your work van, on your tool box, or right next to your work bench.

- Safely stow your torch at home or on the job
- Holds a 14.1oz / 400g Torch
- No more broken or bent torches
- Mounting screws included

ITEM NO.	DESCRIPTION			
TS1	Utility Torch Holder	4	24	6 55348 89012 9

# Private Label Program

For information about our private label program  
please contact the Komelon sales dept.  
at **888-396-TAPE (8273)** or  
by email at **[sales@komelonusa.com](mailto:sales@komelonusa.com)**

- Leadtime : Upon approval of artwork and placement of a minimum order it takes approximately 4 weeks to receive the labels, Your labels will then be kept on hand to support any re-orders.
- Labeling of all product will be done at Komelon USA upon receipt of labels.

# MEASURE MARKER

## HIGH VISIBILITY SAFETY COLOR

Now you can measure and mark as you walk with the Meter-Man Measure Marker. This handy measuring tool allows you to use the 5 digit counter to accurately measure while marking with the pull of a trigger.

### Applications include:

Athletic and rec. departments, asphalt and concrete contractors, estimating, utilities, and many more...

ITEM NO.	DIAMETER	COLOR			
MKMM12	6" (Feet/Inches)	High Visibility	1	2	6 55348 80613 7

# 31 & 45 SERIES

The 10" and 14.3" diameter wheels are the most popular wheels in the market place. The 10" is versatile enough for indoor and outdoor use, while the 14.3" is perfect for almost any outdoor use.

The wheels are covered with a composite tread to provide improved traction on smoother surfaces. These are the perfect wheel for almost any application.

## Applications include:

Athletic and Rec. Departments,  
Concrete and Asphalt Contractors,  
Estimating, Fencing, Grounds  
Maintenance, Irrigation,  
Surveying

**HIGH VISIBILITY

# 60 & 79 SERIES

The 19" and 25" diameter wheels are designed to be used in the roughest terrain and for measuring large areas. The 19" models are covered with a composite tread which is also perfect for smooth surfaces. The 25" models have a polystyrene wheel that is more suited for very rough surfaces and is commonly used to compute acreage using the 6.6 foot circumference.

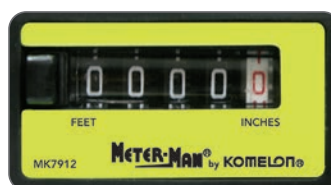

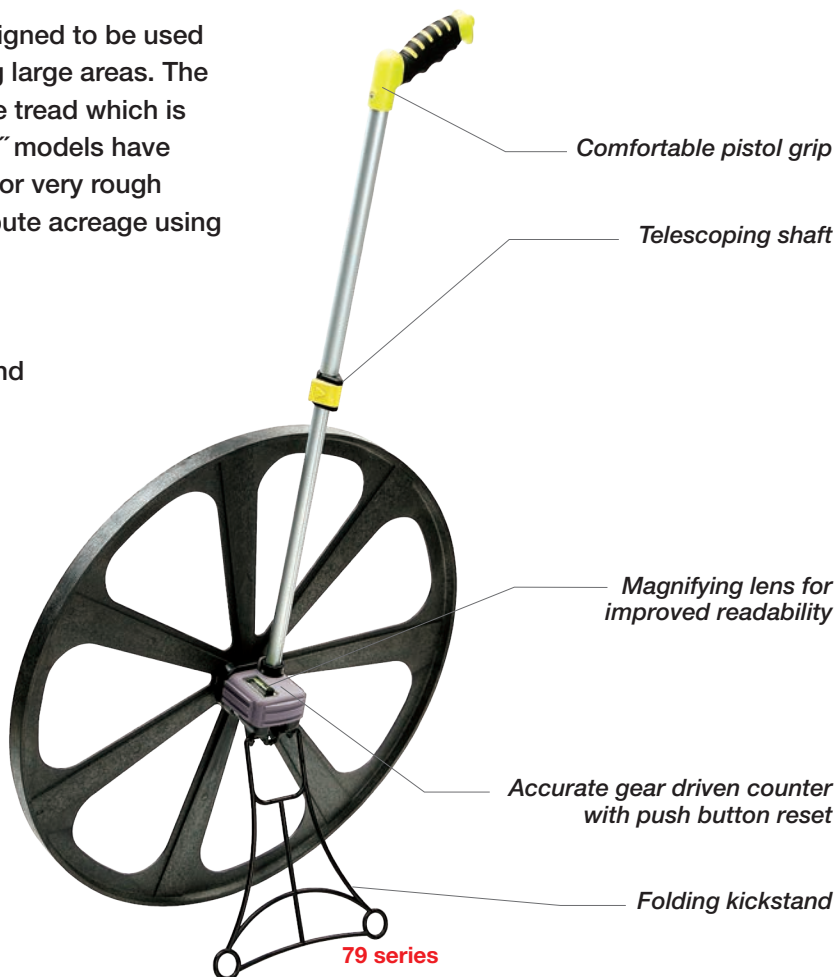

## Applications include (60 Series):

Athletic field and rec. depts., concrete and asphalt contractors, estimating, fencing, grounds maintenance, survey

## Applications include (79 Series):

Agricultural, conservation, forestry, utilities

# ELECTRONIC WHEEL

The Electronic Measuring Wheel features easy to use electronic counters. These are easy-to-read LCD displays that show distances in feet or meters simply by pushing a button.

**LCD Display**  
Shows six digits or four whole numbers and two decimals.

Operates in forward and reverse

**HIGH VISIBILITY  
SAFETY COLOR**

**ON/CLR Button**

This function key turns the electronics on when pressed once and clears the existing reading when pressed a second time. If the wheel controls are not operated for a period of three minutes, the unit will turn off to conserve battery life, but will continue to retain data.

**#1/#2**

This button alternates the display between #1 or #2 data.

**M/FT**

Select from 3 measuring modes:  
Feet & Inches (000'00")  
Feet & Hundredths of a foot (0000.00)  
Meters & Centimeters (0000.00)

**HLD/CLR**

Pressing this button once holds the #1 or #2 reading. Pressing a second time clears the reading and hold.

*Adjustable twist and lock handle*

*Polyvinyl tread for improved traction*

*Electronic wheels feature electronic counters located at the end of the handle shaft*

## Electronic Measuring Wheel Series

ITEM NO.	DIAMETER	COLOR			
EW31	10" (Feet&Meter)	High Visibility	1	2	6 55348 90310 2

# METAL MEASURING WHEEL

Komelon's Metal Measuring Wheel has a rugged steel frame that will withstand the harshest of environments. The mechanical counter with LED light ensures precise and accurate measurements while allowing the ability to use the wheel at nighttime. There is a convenient metal kickstand that is easily accessible at any point in time. Compact storage is available with the telescoping handle. The smooth operation of this wheel is due to the ball bearings that work hard to reduce any friction. Lastly, the high visibility frame increases safety and awareness.

# **KOMELON** SAW

KOMELON®  
MADE IN KOREA  
FC-180/7"  
SPEEDCUT™ PRO

# CARPENTER SAW

The SpeedCut™ Carpenter Saws are ideal for any master woodcrafter or homeowner. The pull saw style refers to the functionality of the saw, which is to cut on the pullback motion. The pull saw technique ensures the blade remains straight, eliminating the bending and binding of conventional push saws. The thin blade design produces less sawdust for a more precise cut with a fraction of the power needed for conventional saws. The flexibility of the blade also allows for easier access in otherwise hard to reach places.
